

1976 Montreal Summer Olympics

My brief research on the Montreal Olympics involved studying the bid process that culminated in the cities of Moscow, Los Angeles, and Montreal vying for the right to host the 1976 Olympics.

On-site Research in Montreal during two separate trips gave me keen insights into what Organizers were expecting from a Montreal Olympics, but the primary focus of this work was on the Cold War politics that drove the selection of Montreal 1976, Moscow 1980, and Los Angeles 1984.

Results of my research can be found in Chapter 4 of my book *Cold War and the 1984 Olympic Games*.

Montréal 1976
